Craig Camel, President
Advanced Mold Diagnostics
500 Abbott Drive, Suite D
Broomall, PA 19008

Dear Craig,

Thank you for your generous contribution to the HBA Dream Home project at the Golf Club Estates at Heritage Creek. Our Charitable Foundation took on this enormous project and with help from members such as you; it turned out to be a great success.

If we had not had your pre-closure inspection, a potential mold problem would have been sealed in and might have caused future trouble for the homeowners. Your thorough assessment combined with your quick response to cleaning and sealing the framing members made a great difference.

On behalf of the HBA of Bucks/Montgomery Counties, I would recommend your services to other builders interested in stopping small problems before they develop into serious concerns.

Sincerely,

Howard R. Cooper
